M. Qasim Irfan

MERN Stack Developer

A dedicated student with a strong passion for becoming a Full Stack Developer across various web development stacks. Currently honing my MERN stack skills with a solid foundation in HTML, CSS, and JavaScript, my goal is to build a SaaS product and launch my own business. I am committed to continuous learning and aspire to contribute innovative solutions to the tech industry as a future software house owner.

SKILLS

React   Mongo DB   HTML   CSS   Javascript   Bootstrap   Github

PERSONAL PROJECTS

Style Sphere: An E-commerce Clothes Web App
- **Tech Stack** : MERN (MongoDB, Express.js, React.js, Node.js) , HTML ,CSS ,Bootstrap
- **Overview** : Style Sphere is a fully functional ecommerce web application dedicated to fashion and clothing, built using the MERN stack. It provides users with an intuitive, user-friendly platform for browsing and purchasing clothes, offering a modern and sleek shopping experience.

Sphinx Dictonary (Web App)
- **Tech Stack** : MERN (MongoDB, Express.js, React.js, Node.js), HTML,CSS,Bootstrap, Open Source Dictionary API
- **Overview** Built a **Sphinx Dictionary** web app with features like word saving and read-aloud functionality. Utilized the **MERN stack** for full-stack development, **Bootstrap** for responsive UI, and integrated an **open-source dictionary API** for word definitions. The app allows users to save words and hear their pronunciation, enhancing the learning experience.

Clone of OTS(open testing service) website
- **Tech Stack** : HTML, CSS, Bootstrap, PHP , XAMPP (MySQL Database)
- **Overview** : Developed a clone of the **Open Testing Service (OTS)** platform using **HTML, CSS, Bootstrap** for responsive front-end design and **XAMPP** for backend data management. The project replicated key functionalities
